Date of Examination: 03/06/04

Examinee: Michael Roberts

This examination was conducted at the request of examinee Michael Roberts. The primary issue concerns the events of December 13, 2001.

Prior to the examination Michael Roberts read and signed a "Polygraph Examination Consent and Release" form.

Roberts indicated that on December 13, 2001, two men allegedly entered his home to either assault or kill his wife. One of the men was a Dustin Wedhe, a young man whom Roberts said he was mentoring. During the ensuing struggle Wedhe was shot and killed by Mrs. Roberts and the second man was able to get away.

Roberts said that at first he was suspected of hiring the two men to kill his wife. He indicated that he failed a polygraph by the Iowa BCI, specifically as the identity of the second intruder. Recently, the local law enforcement officials have been putting pressure on his wife to suggest that she is in danger. As a result he is also having some marital problems.

Roberts denies having anything to do with the assault upon his wife of December 13, 2001. Roberts said he was aware that Wedhe had some very violent tendencies, but he also felt that he could be turned around.

Michael Roberts was given a voluntary polygraph examination in which the following relevant questions (As well as technique Questions) were asked:

A. Did you help or plan with anyone to try and assault your wife on December 13, 2001?

Answer: No.

B. Did you help or plan with anyone to break into your home on December 13, 2001?

Answer: No.

P. 2

C. Do you know for sure who the second person was who broke into your home on December 13, 2001?

Answer: No.

After a computer analysis as well as manual scoring of the charts collected for Michael Roberts it is the conclusion of the examiner that the polygraph responses to the above relevant questions are **NOT Indicative of Deception.**

All original notes and charts will be maintained by writer for the statutory period and released only with the written permission of Mr. Roberts.
